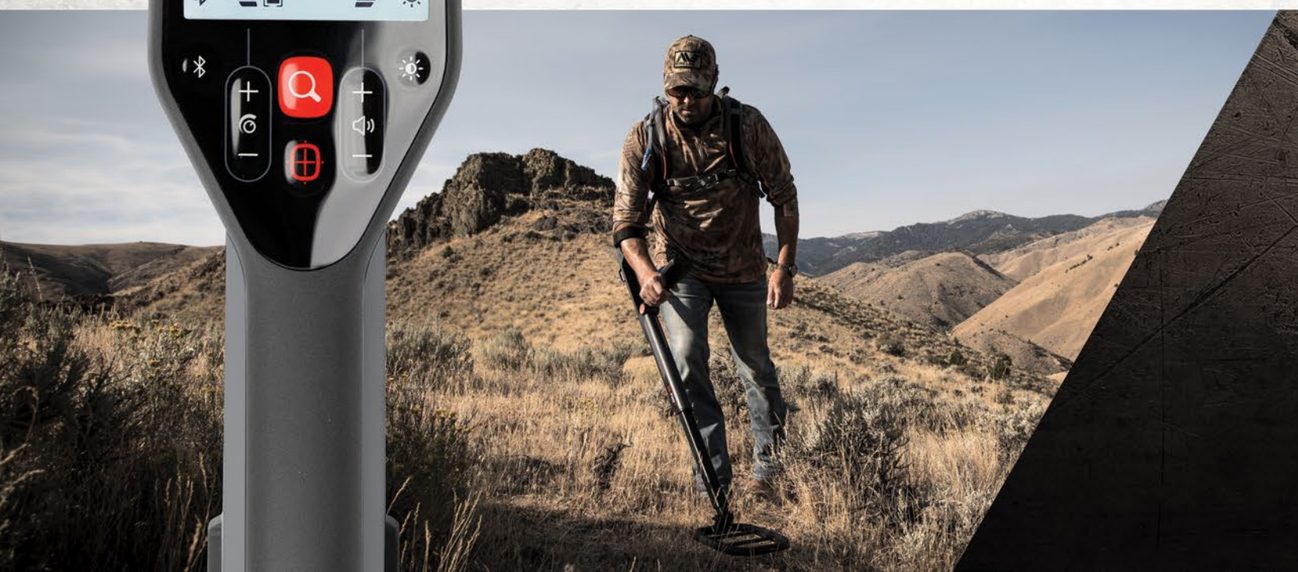
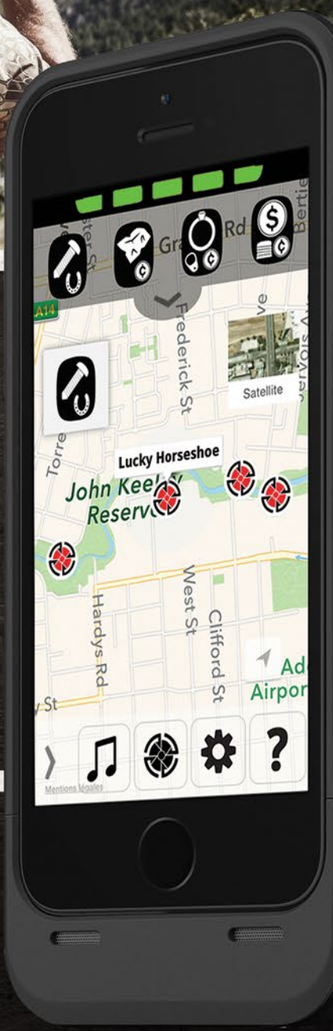
- ☑ **LIGHTWEIGHT:** 20% Lighter* – Detect all day. And the next.
- ☑ **EASY-TRAK:** From parks to beaches. Just set and go.
- ☑ **SMARTPHONE PRO APP:** Remote control. Now that's handy.
- ☑ **COIN ID MAGIC:** Show me the money. Even if it's buried.
- ☑ **TREASURE VIEW:** Trash or treasure? Know before you dig.
- ☑ **BLUETOOTH AUDIO:** Wireless detecting? Music to your ears.

** Based on similar competitor offerings*

FIND MODES: Icons flash to tell you what you've found. You can even tell GO-FIND what sets of objects you want to target by selecting from four pre-set modes.

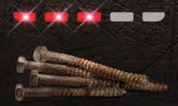




SMARTPHONE PRO APP:
REMOTE CONTROL OVER YOUR DETECTOR. NOW THAT'S HANDY.

Even though you're detecting miles away from anywhere, you can stay connected with the GO-FIND app. Imagine listening to your favourite tracks, or controlling your detector from your phone while you hunt. It's all possible with the GO-FIND app, which is perfectly in tune with your detector.

What's more with the GO-FIND Pro app, you can record all your treasure spots on Google® Maps. So you know exactly what ground you've covered or where you hit the jackpot. GO-FIND with Pro app: Welcome to the future.



TREASURE VIEW:
TRASH OR TREASURE? KNOW BEFORE YOU DIG.

When it comes to detecting, there's really only two things you want to know: is it trash or is it treasure? So with this in mind, Minelab designed the GO-FIND to feature the amazing Treasure View LEDs, which light up and change colour to help you identify what you've found before you dig.

Green lights indicate non-iron objects like coins or jewelry, while red lights indicate iron objects such as nails or keys. GO-FIND 66 with Treasure View: It's detecting made simple.
